## Exercise 2 - Aggregate Functions

### Question 1:

```
26 --Question 1:COUNT:How many sales records are in the table?
27 SELECT COUNT(*) AS Total_sales
28 FROM exercise2.default.sales;
```

Add parameter

|   | <sup>A</sup> <sub>C</sub> category | <sup>1</sup> <sub>3</sub> Total_quantity |
|---|------------------------------------|------------------------------------------|
| 1 | Electronics                        | 12                                       |
| 2 | Furniture                          | 6                                        |

2 rows [See performance \(1\)](#) ✓ Checked for improvements

### Question 2:

```
29
30 --Question 2: SUM:What is the total quantity of products sold?
31 SELECT SUM(Quantity ) AS Total_quantity
32 FROM exercise2.default.sales;
33
```

Add parameter

|   | <sup>1</sup> <sub>3</sub> Total_quantity |
|---|------------------------------------------|
| 1 | 18                                       |

1 row | 2.090s runtime [See performance \(1\)](#) ✓ Checked for improvements

### Question 3:

```
34  --Question 3: AVG:What is the average product price?
35  SELECT AVG(Price) AS Average_price
36  FROM exercise2.default.sales;
```

Add parameter

| Table ▾ |                   | + |
|---------|-------------------|---|
|         | 1.2 Average_price |   |
| 1       | 286.6666666666667 |   |

1 row | 0.799s runtime [See performance \(1\)](#) ✓ Checked for improvements

### Question 4:

```
37
38  --Question 4: MIN:What is the lowest product price?
39  SELECT MIN(Price) AS Lowest_price
40  FROM exercise2.default.sales;
41
```

Add parameter

| Table ▾ |                  | + |
|---------|------------------|---|
|         | 1.3 Lowest_price |   |
| 1       | 20               |   |

1 row | 0.567s runtime [See performance \(1\)](#) ✓ Checked for improvements

### Question 5:

```
41
42  --Question 5: MAX: What is the highest product price?
43  SELECT MAX(Price) AS highest_price
44  FROM exercise2.default.sales;
45
```

Add parameter

Table ▼ +

|   | <sup>1</sup> <sub>3</sub> highest_price |
|---|-----------------------------------------|
| 1 | 800                                     |

⬇ ▼ 1 row | 0.819s runtime [📊 See performance \(1\)](#) ✓ Checked for improvements

### Question 6:

```
45
46 --Question 6: SUM: What is the total revenue?
47 SELECT SUM(Quantity * Price) AS Total_revenue
48 FROM exercise2.default.sales;
49
```

Add parameter

Table  

|   | <sup>1</sup> <sub>2</sub> Total_revenue |
|---|-----------------------------------------|
| 1 | 3850                                    |

### Question 7:

```
50 --Question 7: GROUP BY: Total quantity sold for each category
51 SELECT category, SUM(Quantity) AS Total_quantity
52 FROM exercise2.default.sales
53 GROUP BY category;
54
55
56
57
```

Add parameter

Table  

|   | <sup>A</sup> <sub>0</sub> category | <sup>1</sup> <sub>2</sub> Total_quantity |
|---|------------------------------------|------------------------------------------|
| 1 | Electronics                        | 12                                       |
| 2 | Furniture                          | 6                                        |

  2 rows 0.940s runtime [See performance \(1\)](#)  Checked for improvements
